

BANK SPECIAL EMERGENCY (HURRICANE) ORDERS

With the approach of hurricane season and potential strikes.

In order to expedite, FED orders and speed delivery to our customers,

We suggest that banks order "CURRENCY ONLY" and in the amounts listed below under "SPECIAL BAGS". If possible, avoid ordering COIN.

You are "NOT REQUIRED" by the FED or Intertrust to order CURRENCY ONLY or in the following amounts. However, as time and labor are critical in meeting every customer's needs in a potential disaster situation, we suggest you get approval to order in such quantities as this is how the FED standard procedures pack currency and this requires less labor and time on the FED and your armored operator, Intertrust.
