

Loan Documentation for Loan Administrators

September 12 & 13, 2017 ▪ 9:00am - 4:00pm (both days)

The Bankers Center ▪ Baton Rouge, LA

Loan Documentation is a critical component in lending. After the decision to make a loan has been made, the next step is the documentation and closing process. This part of the lending process is essential in order to avoid loan losses due to poor documentation. Many community banks assign this important responsibility to Loan Officers and Loan Administrators. If not performed properly, poor documentation can cause loans to be adversely classified even if the underlying credit is sound or if the loan is performing as agreed.

The purpose of this two-day workshop is to provide participants with a good understanding of the loan documentation process. Participants will be exposed to the five steps in the loan documentation process, which include:

1. Identifying the Borrower
2. Identifying and Documenting the Collateral
3. Evidencing the Debt
4. Attaching the Collateral
5. Perfecting the Security Interest

Each of the five steps requires certain documents to accomplish their respective purpose. The participant will develop an understanding of each of these documents and know when to use them. The primary documents to be presented are as follows:
