Preparing for CECL Implementation

March 30, 2017 • 8:30am - 12:30pm
The Bankers Center • Baton Rouge, LA

In June 2016, the Financial Accounting Standards Board (FASB) issued the current expected credit losses (CECL) standard. The FASB worked to overhaul the current impairment models in the wake of the economic downturn and this new accounting standard will have a pervasive impact on all financial institutions (specifically banks) and applicable asset portfolios (e.g., loans, leases, debt securities). In response to the anticipated changes, affected institutions will need to assess their governance and risk management frameworks, credit models, data requirements, accounting and operational policies and procedures, processes, controls and IT systems to plan for successful implementation of the new requirements.

**Workshop Topics**
- Understand the various models discussed in the standard
- Review regulatory expectations
- Identify potential data needs
- Use of objective data to support forecasts and qualitative factors
- Understand corporate governance consideration
- Discuss implementation timeline and best practices

**Who Will Benefit**
Chief Financial Officers, Accounting Managers, Chief Lending Officers, Chief Credit Officers, Chief Information Officers, Chief Operations Officer, Operations Managers, Chief Risk Officers, Internal Auditors

**Workshop Instructors**

**Eve Rogers**
is an audit partner in the Financial Services practice and has been with Crowe Horwath LLP her entire career. She spent her first 13 years in the firm’s Indianapolis office and transferred 6 years ago to help lead the audit and accounting consulting practice in Atlanta.
