

2020 Technology Conference (Virtual)

October 8, 2020

9:00am-2:30pm

Conference Agenda

9:00am-10:30am

Disaster Recovery/Incident Response

CapinTech

This session is designed to help bankers implement realistic and manageable plans to follow during any type of incident or disaster situation. Topics for discussion include:

- Lessons learned from recent incidents and disasters, including pandemic scenario
- How to write detailed recovery procedures and perform effective testing
- Planning and recovery for incident response
- Operate without your technology service provider
- What to look for in your vendor's plans

10:30am-10:45am

Break

10:45am-11:45am

Remote Workforce Technology

Michael Richmond, P&N

We have witnessed a sea of change in how employees engage and both internally with coworkers and externally with clients/customers. These changes have required rapid adoption of new technologies and processes to maintain productivity. In this session we will explore, from an IT practitioner's viewpoint, the risks and opportunities that present themselves with a remote workforce.

11:45am-1:00pm

Lunch Break

1:00pm-2:30pm

IT Examination Findings and Helpful Tips

Enrique Rodriguez and Humberto Garcia, FDIC

Financial institutions face continued challenges in implementing and maintaining robust logical security controls in the face of increasing and more sophisticated cyber security attacks. This presentation will focus on trends in examination findings that have been identified on IT examinations and provide helpful tips for implementing mitigating controls. The presentation will also cover the most common cyber incidents reported to the Dallas Region in 2020.

Virtual Live Seminar Registration Fee

\$265, per LBA member

\$465, per non-member

Who Should Attend

Conference Speakers

CapinTech provides IT audit, consulting and training services to financial institutions, medical entities, CPA firms and their clients. The Firm has been providing services in the IT area since 1999 and each year performs hundreds of audit, consulting and speaking engagements with a team of experienced professionals retaining numerous certifications, including CPA, CISA, CITP, CGMA and CTGA. For every engagement, the staff of highly trained professionals tailors the work for the unique makeup, size and complexity of the organization and information and reports are presented in a concise manner, making them easy to understand by those having a variety of IT expertise.

Michael Richmond CISSP, CCSFP is currently the Director of Cybersecurity & Technology Services for Postlethwaite & Netterville, APAC, a top 100 U.S. accounting and business advisory firm. Michael leads the Technology Services Group by setting strategic direction for all existing and emerging technology consulting services, as well as overseeing all aspects of the group’s business operations. Michael is an experienced Cybersecurity professional with over 23 years of experience providing governmental, healthcare, higher education and other varied industries with advanced cybersecurity risk management services, such as digital forensics and incident response, operationalizing cybersecurity practices, IT risk management and computer forensic expert witness testimony.

Enrique Rodriguez is a Supervisory Examiner (IT) for the FDIC who supervises and leads a regional team of senior IT examiners throughout the Dallas Region and the Memphis Area Office. He is responsible for planning and scheduling all IT examination activities of the most complex organizations and financial institutions in the Dallas region, including Significant Service Providers, regional Technology Service Providers, Large Insured Depository Institutions, and complex financial institutions. He also performs the review and analysis of all reports of examinations, supervisory recommendations, and enforcement actions. Mr. Rodriguez is a 20-year veteran with the FDIC and holds the CFE, CISA, and CISSP certifications.

Humberto Garcia is an Information Technology Examiner for the FDIC in the Dallas Region who frequently serves as Examiner-in-Charge of entities of various size and complexity, including financial institutions and interagency examinations of technology service providers. He also serves as a regional backup central point of contact for a complex institution in the FDIC’s Large Insured Depository Institutions (LIDI) Program. Mr. Garcia is as a regional IT subject matter expert and as an IT trainer and presenter. He is a former Safety and Soundness Examiner in the New York Region and a 9-year veteran with the FDIC.
